Osaka University of
Economics Graduate Schools

Admission Policy (Policy for Admission of Entering Students)

[School of Economics]

[Educational Objective]

The School of Economics is designed for the teaching of and research into the theories and application of economics and the mastering of the subject matter to a profound level, and aims to cultivate talent who will contribute to cultural development.

With the aim of imparting deep knowledge from a broad perspective and cultivating superior competence in order for students to take on professions which call for research abilities in economics or advanced specialization, for the master's degree program, we have established a research course, a tax accountant training course, and a general course, allowing students to gain experience in theoretical and applied studies.

The aim of the doctoral degree program is, with regard to economics, to cultivate advanced research ability and rich knowledge which forms the basis for that ability, as these are necessary for independently performing research activities as a researcher.

[Image of Graduate Students We Seek]

1. Master's Degree Program

(1) Research Course

We seek individuals who will research the theories and application of economics with a strong desire to continue onto a doctoral degree program and become an independent researcher.

(2) Tax Accountant Training Course

We seek individuals who, while basing their studies on economics, will research the theories and application of finance and tax law with a strong desire to become a tax accountant with a broad perspective and deep insight.

(3) General Course

We seek individuals who will research and investigate the theories and application of economics or the theories and application of domestic and international regional policy with the wish to become a highly specialized professional who uses specialized knowledge or the strong desire to engage in lifelong learning.

2. Doctoral Degree Program

We seek individuals who, with a foundation of research conducted in a master's degree program, will produce independent research results through even deeper research into the theories and application of economics with the strong desire to earn a doctoral degree.

11. Personal Information Protection for Applicants

Matters of Agreement in Application

- ◆ Based on the Act on the Protection of Personal Information, Osaka University of Economics utilizes and properly manages personal information supplied by applicants at the time of application as detailed below.

- (1) Activities involved in conducting entrance examinations
- (2) Sending pass/fail notifications and entrance procedure documents to the relevant persons
- (3) Provision of information related to items the university judges necessary for beginning student life
- (4) Surveys/research for educational improvement, as well as statistical data concerning entrance examinations that does not identify individuals

Note that for some of the above, the university may consign work to a contractor designated by the university. In this case as well, the university will select a consignment company which, similar to Osaka University of Economics, has organized a sufficient system for the protection of personal information, and will not use personal information for purposes other than the above.

- ◆ The following items are considered to be "agreed upon" when an applicant fills in the name field of the application.

- (1) In submission of an application, when there is an entry error or a situation that cannot be judged by OUE and it is predicted this would put the applicant at a disadvantage, if the applicant cannot be reached, OUE may contact a previous school, etc. without notifying the applicant
- (2) Information supplied by applicants to OUE will be used, in such a way that individuals cannot be identified, at the discretion of OUE for the purpose of developing the entrance examination system in the future

12. Disclosure of Entrance Examination Information

- ◆ If there is a request from the examinee himself/herself (agents not permitted), OUE will disclose the entrance examination results for all testing methods (only for the applicable school year).

- (1) Request Qualifications

Limited to examinees only (applications by agents not accepted).

- (2) Scope of Disclosure

All testing methods in 2022 school year

*** Disclosure will not be conducted for entrance examination results for previous years (entrance examinations for April, 2021 entrance and before).**

- (3) Content of Disclosure

1) Score for each subject, and total points

2) Minimum points to pass

- (4) Disclosure Method

Upon a disclosure request, a result disclosure sheet will be issued by postal mail within two weeks.

- (5) Receiving Requests
